

Task 5 – Web 2.0 Narratives

Choose a 'classic' narrative. This could be a fairy tale, a piece of theatre, or a narrative from a classic film.

Research the story.

Understand the structure, the history and social function of your story (what are the 'beats' of the story, how has this story been told throughout history what is the moral of the tale?).

Write this research up, and present it on your blog.

Use various online/Web 2.0 tools (Googlemaps, Youtube, Camtasia, Xtranormal, Facebook, Twitter, Instagram etc.) to retell and update your chosen story.

Your research should be evidenced throughout your artefact.

You can find all the information on how to create your very own Googlemap here:

<http://maps.google.com/support/bin/static.py?page=guide.cs&guide=21670&topic=21676>

Your work should be completed and uploaded to your blog by 09:00am on Monday 1st February.
