## FISH TANK GALLERY

ASH

Welcome my wonderful weirdo's to the Grand Bizarre.

ASH

Tonight on our episode..

HARRY

The History of Cocktails

ASH

How to make the perfect cocktail

HARRY

The ultimate side to these cocktails.

ASH

A mystery Bush-tucker challenge

HARRY

And an interview that might change your life.

ASH

All of which, will be coming up tonight (pause), in The Grand Bizarre.

HARRY

Where all things weird (notion to Ash) and wonderful come to surface.

CUE PAPER INTRO

HARRY

This week on our show as usual we have some tasty cocktails for you to tickle your taste buds with. Later on me and Ash will put our stomachs to the test with foods that may or may not match our cocktails?

ASH

But first lets take a look at this.

CONTINUED: 2.

"RUN VT1: COCKTAIL HISTORY"

ASH

Thank You Mark Sundaram for giving us a glimpse behind the history of cocktails. Be sure to check him out on our site, links are on screen now.

HARRY

Now it's time for you guys to get involved. Send in YOUR cocktail riddles or poems for a chance to win a day in the studio and be featured on our show.

ASH

We want your riddles to be the craziest they can be, think of anything for a chance to win. Information on how to win will be on our website.

HARRY

So what are you waiting for you? Get writing and get sending.

ASH

Since today's addition to our cocktails is weird foods. We have prepared a short clip with our team who are currently in Amsterdam, trying different street foods from the Netherlands.

"RUN VT2: AMSTERDAM"

HARRY

Wow, I could do with some food right now.

ASH

Mmmmm, me too. I've never been to Amsterdam but I will be sure to try that next time i'm there.

ASH

Speaking of food, we have a very special guest for you, who will open your eyes to the world of food. She is not only a marathon runner but she also knows a lot about nutrition. You may be surprised by those foods, which are actually really good for you.

CONTINUED: 3.

HARRY

Hello and welcome \_\_\_\_ to our show. For those at home who don't know, can you tell the audience a bit about yourself?

CUE INTERVIEW QUESTIONS (NOTEPAD)

HARRY

Up next we have what we like to call 'happy hour', where we'll create cocktails from our own bar backstage.

VT3: RUN COCKTAIL MASTERCLASS VT. (BUGS BROUGHT OUT TO SET DURING VT.)

ASH

Thank You for that lovely demonstration Sophie. Although I try to avoid ordering cocktails apart from the weekend, this week was an exception. I suppose one (winks at the camera) or 4 cocktails won't hurt. I hope it's a nice surprise Sophie.. Is it?

SOPHIE

Oh guys, I know you'll **love** it. The essence of my surprise originates from Mexico. Did you know natives drink worms inside their tequilas?

HARRY

Are you being serious??? I'll just stick with my Jack and Coke thank you very much!

ASH

Stop talking about cocktails, we haven't spoke about the fact she mentioned bugs as a good nibble with cocktails. You will NOT see me eating any bugs.

HARRY

Well things just got interesting.

ASH

Wait? What! No one said anything about eating bugs, did they?

CONTINUED: 4.

SOPHIE

Surprise!

HARRY

(looks at ash) As a treat your going to try them.

ASH

(stares at Harry.) Actually Harry your going to be trying them with me, isn't he Sophie?

SOPHIE

You both certainly will.

ASH

Let's see what we have here.

SOPHIE

Well we have, Meal worms, buffalo worms, crickets and locusts.

ASH

I'll do it if you do it. (Harry and Ash pick up the meal worm).

'LIVE' REACTION.

HARRY AND ASH

(Pick up the buffalo worm-'LIVE' Reaction)

HARRY AND ASH

(Pick up the Cricket-'LIVE' Reaction)

HARRY AND ASH

(Pick up the Locust-'LIVE' Reaction)

Both React in turn

Tune into the grand bizarre next week, where we'll have more cocktail madness. Alongside wacky fashion trends, a catwalk disaster and our mystery special guest. Give us a follow on twitter and be sure to check us out on our website for more exclusive content.

ASH AND HARRY

And remember Happy hour is every hour. Bye Bye for now.
